Deadly Duck™

Maximus Blinds™

SEE...and not be SEEN. Know when to call the shot!™

DEADLY DUCK PUTS YOU IN THE HOT SPOT!™

"The Deadly Duck makes Paul's Ponds successful, especially late season. Just moving the blind 75 feet makes the ducks think it's opening day again. Hunters love watching the incoming birds and shooting ease."

**Paul Sullivan,
Burbank Guide Service

LOCATION, LOCATION, LOCATION...

2-Man Deadly Duck PUTS YOU 'IN THE ZONE'!™

NEW Modular Design: Just add blinds to increase hunters or space. Ends are interchangeable. To create access between the blinds, additional connectors are provided to replace vertical strut on non-door end. Increased height and width improves hunters use and success.

Easy to transport or move daily, especially at 'O' dark thirty. Use the quick connector pins to assemble the panels. Access doors for hunters and man's best friend.

EZ-FAB mesh is excellent concealment. Just insert natural vegetation into the poly-diamond openings. This gives a 3-D effect and breaks up the hunter's silhouettes.

Ultimate Hide - Portable - Quick Assembly - Ease of Shooting

Superior hide allows for closer shots, which produces greater accuracy and allows for more discriminating shots. Ample room for hunters, dogs and gear.

Affordable, less than a 1-man layout blind. Comfortable. Rest in chairs before taking a step and standing to shoot. Handicap able to shoot from chair.

Half inch durable steel with textured powder coat, in flat Dead Grass Color, which blends into most settings. EZ-FAB in matching flat color.

Fools Late Season Birds - Transport Daily or Use as Permanent Blind

Proven Design. Great for young to experienced hunters.

Versatile. Use for hunting, videoing or play house.

3-way trap shooting door. Leave open and brush up for early season, flip out for quick shots or slowly drop into the blind which gives the hunters those precious extra seconds before the shot.

Panels stack for transport or storage. Includes: quick connector pins, nuts/bolts package for semi-permanent set-up, zip ties, 50 ft. bungee cord for attaching natural camo and 2 stakes.
(Chairs not included, suggest using director's style chairs with taunt seats, which are easier to rise from.)

All panels are separate.
There is NO FLOOR in the blinds.

Use with care.
Manufacturers and distributors are not liable for any personal or property damages, of any kind.
