FOR IMMEDIATE RELEASE

AERO OUTDOORS SUPPORTS CONSERVATION GROUPS

AERO OUTDOORS just received another award certificate from California Waterfowl Association, for their support at various fund raisers. Aero donates various products, such as Full Curl Decoys, 2Man Modular Maximus Blinds, Velvet Feather Decoy Flocking Kits and various other products and apparel.

The California Waterfowl Association is a statewide nonprofit organization whose principal objectives are the preservation, protection, and enhancement of California's waterfowl resources, wetlands, and associated hunting heritage. More information can be found at www.calwaterfowl.org

Aero believes in giving back to those organizations which are ensuring the perpetuation of the wildlife resources, to enable today's and future generations the ability to enjoy the outdoors. Whether you hunt or not, just watching the migrating waterfowl will mesmerize you. When the waterfowl populations are strong in numbers, then the various wetlands, whether they are breeding grounds or resting grounds, are also healthy enough to support the birds and other species. Healthy wetlands provide filtering for clean water and healthy air to breathe, plus support hundreds of various species in and around the water.

Aero takes pride in giving back to our society. Our enjoyment of the outdoors today was secured by those who came before us and saw the need to preserve the land, refuges and hunting programs and pass hunting regulations/laws which are tools to manage and preserve the source of our enjoyment. Hunters support their sport through the products they buy, hunting licenses, refuge access fees, donations and other fees and taxes. Just like our forefathers who used the land as the source of sustenance, hunters today provide healthy food for their families and help maintain recreation areas which are full of amazing numbers of wild life to watch and enjoy.

Aero supports many worthy organizations; Delta Waterfowl, Ducks Unlimited, NRA, SCI and various state organizations and groups which spend time and money to make sure the voice of the hunter and those who enjoy the resources are heard.

-End-

(Note: Aero cannot fulfill every request for donations. Various organizations requests are supported annually.)
