

Aero Outdoors.com DECOY Re- Paint Program 2011 All prices are per each decoy.

PLEASE ENCLOSE SIGNED FORM WITH THE DECOYS. Credit card will be charged in advance for custom work. Must sign order.

Terms: All details are part of the terms. General costs are below. Final quote when we receive decoys. Only what is needed to refresh decoys will be done, unless instructed otherwise. Costs may vary if the paint comes off more in the process on other brands. We will call you if this occurs. Customer pays for all shipping costs. Ship in a box that will allow for the re-shipment of the decoys.

Painting: We use our custom in-house mixed paints, which are used on the DZ's. We use the highest quality paint on the market, due to the long durability and less fading. Surfaces are prepared before painting. You will receive the most current paint scheme on DZ's, which may not match previous. Our flat clear coats must be used to protect the paint. Our flat paint colors/schemes have received rave reviews!

Flocking: Aero sells kits/ bulk which are the same products used on deks. More cost effective for the customer to do the re-flocking.

MUST: All Decoys must be shipped to us washed, totally clean, dried & free of dust, before bagging/shipping. If not we will charge you to brush, wash and dry the decoys. If not shipped clean fees may apply, also must be in plastic bags, or they will be added to your invoice & charged before return. Allow 3-5 weeks for processing. You must have your own insurance on your products, while in our possession.

DropZone Decoys; We will confirm costs before decoys are processed. Services are Paid in advance.

Please specify if you want a darker 'Lessor' _____ paint scheme, or a lighter 'Honker' _____ paint scheme.
